FOR IMMEDIATE RELEASE

Hawaiian Electric to conduct aerial line inspections

HILO, July 22, 2022 – To improve system reliability, Hawaiian Electric will conduct quarterly aerial inspections of its major overhead transmission lines from Monday, August 1, to Friday, August 5, 2022.

The islandwide inspections are scheduled from 7:30 a.m. to 4:00 p.m. However, exact times and routes will depend on weather conditions. Inspections will be conducted in a Manuiwa Airways helicopter and require the aircraft to fly low and slow which may cause some noise disturbances.

Hawaiian Electric thanks the community for their patience and understanding.

If there are any questions or concerns, please call 969-6666.
