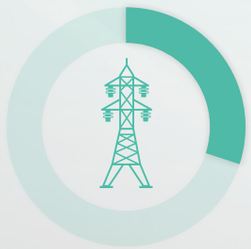
CHAI ENERGY

Know your power.



This is equal to **30% of our yearly energy usage**

There are hundreds of ways to waste…

Unfortunately, our bill raises more questions than it answers.

What can I do to lower my utility bill?

Why is my energy bill so high?

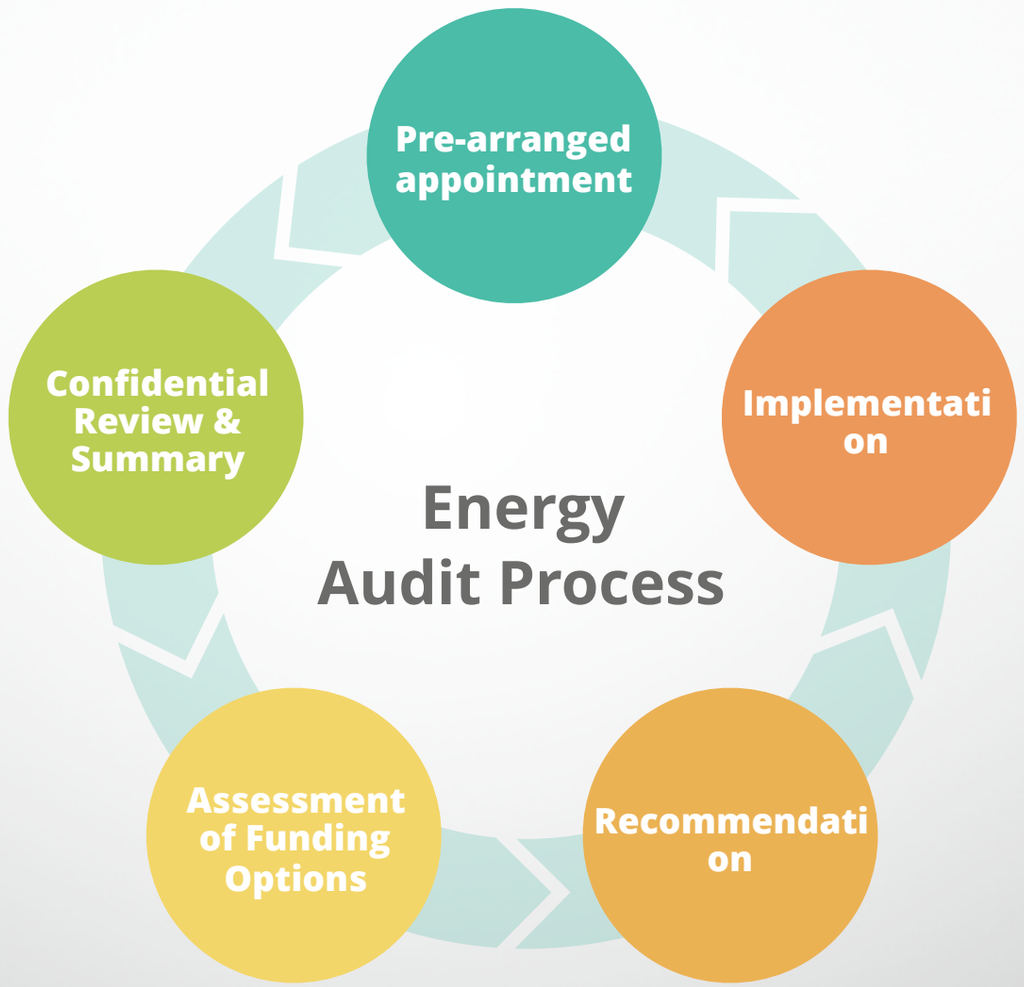
What is being left on at home?

Is solar right for me?

How much energy are my appliances using?

Those damn kids again…

Energy audits are invasive



Energy monitoring today ***only helps the nerds***

Chai Lite

Chai Energy Lite is a totally free, no cost solution that securely ingests and analyzes customers' daily Green Button data from their utility account.

Chai Pro

Chai Energy Pro uses an affordable wireless gateway to collect real-time, second-by-second energy data from a customer's home. With this higher resolution data we can identify energy waste on an appliance-level basis.
