NEW features in the Customer Interconnection Tool (CIT): Amendments and Battery Bonus

TABLE OF CONTENTS

Initiating an Amendment/Battery Bonus Application.....page 2 - 3

Contact Information:

How to document System Owner changes.....page 4

Amendment Submission.....page 5 - 6

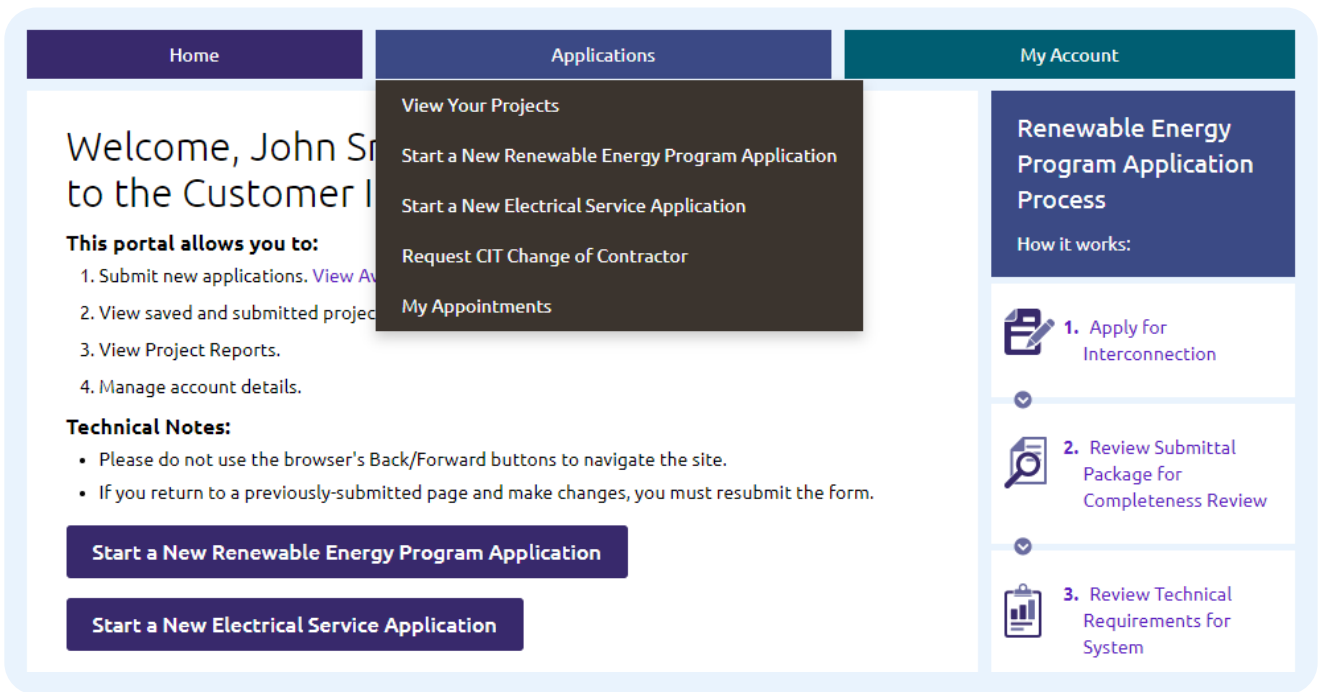

If you have an existing Solar Agreement with Hawaiian Electric, you can now submit Amendments, including Battery Bonus Applications, through the Customer Interconnection Tool. You can document equipment additions, removals and replacements.

Initiating an Amendment/Battery Bonus Application

To Create an Amendment/Battery Bonus Application:

1. Log in to the Customer Interconnection Tool
2. Select **“Start a New Renewable Energy Program Application”**

3. Choose **AMEND** in the dropdown selection (all amendments including Battery Bonus)
4. For an overview of items you may need throughout the process click to expand the list under **“Application Requirements”**

APPLICATION REQUIREMENTS

Below is a list of items and information that may be needed during your application process:

[Expand for more Information >](#)

- Detailed information about proposed system equipment being removed (i.e. manufacturer(s), model numbers, rated electrical capacity, and the design, usage, and components of any energy storage) (for amendments where equipment is being removed or replaced)
- Proof of application for PV system building permit (for Battery Bonus applications)
- Designation of incentive recipient (for Battery Bonus applications)
- A system owner is required for all Battery Bonus Applications. This individual or company will be the incentive recipient, and should match the submitted W9.

Save and Continue

How to document System Owner changes:

1. If there has been a change in system ownership, select yes. This can include lease transfers from previous property owners, lease buyouts, or new leasing companies.
2. If part of the system is owned by a leasing company, and part is owned by the property owner, it will be necessary to list both the leasing company and property owner as system owners, with descriptions of what portion is owned by each.
3. If multiple leasing companies each own a portion of the system, they should all be listed.

SYSTEM OWNER

Has there been a change in system ownership? *

Will the system be leased? * 

SYSTEM OWNER

Has there been a change in system ownership? *

Please upload a copy of the lease transfer, buyout, etc. *

Will the system be leased? * 

Are there multiple system owners or lease companies? *

Amendment Submission

If you are applying to participate in the Battery Bonus Program, remember to check the **“This amendment is for Battery Bonus”** box.
