Complete Meter List

To expedite the execution and system energization process, we are posting addresses of pending CER customers who have recently had a revenue meter replaced with a meter appropriate to the interconnection program they are applying for. Please note:

- Only the customer's service address and date of the meter replacement will be posted.
- The list pertains only to the customer's revenue meter and does not include production meter installations or service upgrade information.
- Customers who already have an appropriate meter (i.e. who may be adding or replacing equipment) may not be listed.
- Addresses will be listed for four weeks from the date the meter was replaced.

In rare circumstances a customer's address may not be listed, despite a recent meter replacement. If your customer's address is not on this list, please email connect@hawaiianelectric.com so we can confirm the customer's meter status.
